1. Nature of operations and going concern

BWR Exploration Inc. (the "Company" or "BWR"), incorporated on January 20, 2011, is engaged in the exploration of precious and base metal properties. BWR is a public company, quoted for trading on the TSX Venture Exchange ("TSX-V") under the symbol "BWR". The Company's principal properties are the Santa Maria Project, the Shunsby Project, the Vendôme Sud Property and the Little Stull Lake Gold Project. The head office of the Company is located at The Canadian Venture Building, 82 Richmond Street East, Suite 201, Toronto, Ontario, M5C 1P1, Canada.

The unaudited condensed interim financial statements of BWR for the three and six months ended May 31, 2018 were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on July XX, 2018.

As at May 31, 2018, the Company had a working capital of \$129,220 (November 30, 2017 - working capital deficit of \$273,694) and a deficit of \$3,699,838 (November 30, 2017 - \$3,482,256). Management of the Company believes that it will be able to pay its ongoing general and administrative expenses and to meet its liabilities for the ensuing twelve months as they fall due through additional financing. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as a going concern. The Company's ability to continue operations and fund its exploration and evaluation expenditures is dependent on management's ability to generate cash and manage its cash resources.

Management believes the going concern assumption to be appropriate for these unaudited condensed interim financial statements. If the going concern assumption was not appropriate, adjustments might be necessary to the carrying value of the assets and liabilities, reported revenues and expenses, and the balance sheet classifications used in the unaudited condensed interim financial statements. These adjustments could be material.

The recoverability of exploration and evaluation expenditures is dependent upon the discovery of economically recoverable reserves, the preservation of the Company's interest in the underlying mineral claims, the ability to obtain necessary financing, obtain government approval and attain profitable production, or alternatively, upon the Company's ability to dispose of its interest on an advantageous basis.

2. Summary of significant accounting policies

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IFRS Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of the date the Board of Directors approved these statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended November 30, 2017. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending November 30, 2018 could result in restatement of these unaudited condensed interim financial statements.

2. Summary of significant accounting policies (continued)

Future accounting changes

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for annual periods beginning on or after December 1, 2018 or later periods. Many are not applicable to or do not have a significant impact on BWR and have been excluded from the table below. The following have not yet been adopted and are being evaluated to determine their impact on BWR.

(i) IFRS 9, 'Financial instruments', addresses the classification, measurement and recognition of financial assets and financial liabilities. IFRS 9 was issued in November 2009, October 2010 and other dates thereafter. It replaces the parts of IAS 39 that relate to the classification and measurement of financial instruments. IFRS 9 requires financial assets to be classified into two measurement categories: those measured as at fair value and those measured at amortized cost. The determination is made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument. For financial liabilities, the standard retains most of the IAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. IFRS 9 will be effective for annual periods beginning on or after January 1, 2018.

(ii) IFRS 16, Leases ("IFRS 16") was issued in January 2016, and supersedes IAS 17, Leases. This standard introduces a single lessee accounting model. The new standard will affect the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including for most leases which are currently accounted for as operating leases. The Standard is effective for annual periods beginning on or after January 1, 2019, with earlier adoption permitted.

3. Promissory notes

On February 29, 2016, the Company issued promissory notes totaling \$60,000 to a director and a director and officer of the Company. The notes bore interest at 8% per annum and were payable on demand. During the six months ended May 31, 2018, these promissory notes and accrued interest were repaid.

During the six months ended May 31, 2018, the Company recorded an interest expense of \$460 (six months ended May 31, 2017 - \$2,590) related to the promissory notes.

5. Share capital (continued)

b) Common shares issued (continued)

(i) On March 28, 2017 and April 6, 2017, the Company completed the first and final tranche, respectively, of a non-brokered private placement. Under the first tranche, the Company issued 7,285,500 non flow-through units ("NFT Units") at a price of \$0.05 per unit for gross proceeds of \$364,275 and 3,650,000 flow-through units ("FT Units") at \$0.06 per FT Unit for gross proceeds of \$219,000. Under the final tranche, the Company issued an additional 600,000 FT Units for gross proceeds of \$36,000.

Each NFT Unit consisted of one common share of the Company plus one share purchase warrant ("Warrant"). Each Warrant expires 24 months from the date of issue and will entitle the holder to purchase one common share at a price of \$0.075. Each FT Unit consisted of one common share of the Company plus one-half share purchase warrant ("FT Warrant"). Each FT Warrant expires 24 months from the date of issue and entitles the holder to purchase one common share at a price of \$0.10. Cash commissions totaling \$28,862 were paid to registered brokers on the basis of 8% of the value of the private placements by their clients. In addition 644,840 broker warrants were issued to registered brokers on the basis of 8% of number of units subscribed for by their clients. Each broker warrant entitles the holder to purchase a common share for a period of 24 months from the date of issuance at a price per share of \$0.10.

The fair value of the 7,285,500 Warrants and 2,125,000 FT Warrants were estimated at \$312,548 and \$87,550, respectively, using the Black-Scholes option pricing model with the following weighted average assumptions: expected dividend yield - 0%, share price of \$0.055, expected volatility - 185% (based on historical volatility), risk-free interest rate - 0.74%, exercise price of \$0.08 and an expected average life of 2 years.

The fair value of the 644,840 broker warrants was estimated at \$26,568, using the Black-Scholes option pricing model with the following weighted average assumptions: expected dividend yield - 0%, share price of \$0.055, expected volatility - 185% (based on historical volatility), risk-free interest rate - 0.74%, exercise price of \$0.10 and an expected average life of 2 years.

The flow-through units issued were issued at a premium in recognition of the tax benefits accruing to subscribers. The flow-through premium was calculated to be \$65,025.

5. Share capital (continued)

b) Common shares issued (continued)

(ii) On December 22, 2017, the Company closed the first tranche of the non-brokered private placement for gross proceeds of \$577,850, consisting of 1,330,000 flow-through shares at \$0.10 per share and 6,355,000 non flow-through units at \$0.07 per unit. The second tranche of the private placement closed on December 29, 2017 for gross proceeds of \$100,000, consisting of 1,000,000 flow-through shares at \$0.10 per share.

Each unit consisted of one common share of the Company plus one half of one common share purchase warrant. Each warrant will expire 24 months from the date of issue and each whole warrant will entitle the holder thereof to purchase one common share at a price of \$0.15 per share.

The fair value of 3,177,500 warrants were estimated at \$134,726 using the Black-Scholes option pricing model with the following weighted average assumptions: expected dividend yield - 0%, share price of \$0.065, expected volatility - 166% (based on historical volatility), risk-free interest rate - 1.66%, exercise price of \$0.15 and an expected average life of 2 years.

In connection with the private placements, BWR has paid finder's fees in an amount of \$31,492 and issued 370,000 broker warrants. Each broker warrant entitles the holder thereof to purchase one unit of the Company at a price of \$0.10 per unit for a period of 24 months from the date of issuance.

The fair value of 290,000 broker warrants issued on December 22, 2017 were estimated at \$13,369 using the Black-Scholes option pricing model with the following weighted average assumptions: expected dividend yield - 0%, share price of \$0.065, expected volatility - 166% (based on historical volatility), risk-free interest rate - 1.66%, exercise price of \$0.10 and an expected average life of 2 years.

The fair value of 80,000 Broker Warrants issued on December 29, 2017 were estimated at \$4,712 using the Black-Scholes option pricing model with the following weighted average assumptions: expected dividend yield - 0%, share price of \$0.08, expected volatility - 166% (based on historical volatility), risk-free interest rate - 1.69%, exercise price of \$0.10 and an expected average life of 2 years.

One insider participated in this financing subscribing for 860,000 units for net proceeds to the Company of \$60,200.

The flow-through units issued were issued at a premium in recognition of the tax benefits accruing to subscribers. The flow-through premium was calculated to be \$20,504. As of May 31, 2018, the Company has a flow-through premium liability of \$15,302.

7. Stock options (continued)

(i) On January 30, 2017, the Company granted 500,000 stock options to a consultant with an exercise price of \$0.10 per share, vesting 25% in three months and at the end of six, nine and twelve months, with an expiry date of January 30, 2019. The fair value of these stock options was estimated at \$18,700 using the Black-Scholes option pricing formula with the following weighted average assumptions: expected dividend yield - 0%, expected volatility - 188%, risk-free interest rate - 0.79% and an expected average life of 2 years. The stock options were valued based on the equity instrument granted as no value could be determined for the service.

(ii) On May 29, 2017, the Company granted 1,087,500 stock options to certain officers, directors and consultants with an exercise price of \$0.075, fully vested on issuance and with an expiry date of May 29, 2022. The fair value of these stock options was estimated at \$56,659 using the Black-Scholes option pricing model with the following assumptions: expected dividend yield - 0%, expected volatility - 178% (based on historical volatility), risk-free interest rate - 0.95% and an expected average life of 5 years.

As of May 31, 2018, the following stock options were outstanding:

Expiry Date	Exercise price (\$)	Number of stock options	Number of exercisable stock options	Weighted average contractual life (years)	Grant date fair value (\$)
June 6, 2018	0.20	1,300,000	1,300,000	0.02	84,500

Weighted average outstanding - diluted	64,412,461	52,157,961	63,324,164	47,889,060

Basic loss per share is computed by dividing net loss (the numerator) by the weighted average number of outstanding common shares for the period (the denominator). In computing diluted loss per share, an adjustment is not made for the dilutive effect of outstanding warrants and outstanding stock options as they are anti-dilutive.
